**Premium Electric Vehicles with Advanced LFP Battery
Technology**

Dealer Document 2026

KL EV INDIA PRIVATE LIMITED

Who We Are

Our Vision

Our vision is to build a well-established national-level brand, highly recognized for its uncompromised service and advanced products installed with cutting-edge technology. We aim to be recognized as a brand where you will get a most durable and reliable product with best-in-class service and a relation of trust.

Our Mission

Our mission is to manufacture EV Vehicle on a lower budget, environmentally sustainable and make it affordable for every class of people.

We Manufacture Our Own LFP Batteries!

At KL EV INDIA, we manufacture advanced Lithium Iron Phosphate (LFP) batteries in-house, ensuring superior quality, performance, and an unmatched 3-year warranty.

3-Year Warranty - The KL EV Advantage

In-House Manufacturing

We make our own batteries

3 Year Warranty

Standard on Lithium models

Superior Range

70-120 km per single charge

Fast Charging

Ready in 3-5 hours

Why Choose Our LFP Battery?

Feature	KL EV LFP Battery	Ordinary Lead Acid
Warranty	3 Years	1 Year
Life Cycle	2000+ Cycles	300-400 Cycles
Charging Time	3-5 Hours	7-8 Hours
Weight	Lightweight	Heavy & Bulky

Environmentally Friendly Technology

Sustainable, clean energy for a greener future

Our Journey

From humble beginnings to industry leadership - A story of innovation and growth

2021 - The Beginning

Founded **KL EV INDIA** with a vision to revolutionize electric mobility. Launched our first **4 electric scooter models** with cutting-edge technology and affordable pricing.

2021 - 2025 - Exponential Growth

₹100+ Cr

Turnover Achieved

40,000+

Vehicles Sold

Established as a **trusted brand** across India with expanding dealer network.

2025 - Manufacturing Revolution

Launched **In-House LFP Battery Manufacturing** - A game-changing milestone. Manufacturing our own Lithium Iron Phosphate batteries with **3-year warranty**, ensuring superior quality and performance.

Unique Advantage: Complete vertical integration - from battery manufacturing to vehicle assembly.

2026 & Beyond - Future Goals

Expanding product portfolio, increasing capacity, and making EVs accessible to every Indian household!

Our Achievements

4+

Years in Business

10+

Models Available

₹100Cr+

Revenue

60K+

In-House LFP Battery Manufacturing

60.8V VOLTAGE	31 AH CAPACITY	1.9 KWH ENERGY	LFP CHEMISTRY	2000+ CYCLE LIFE	3 Yrs WARRANTY
-------------------------	--------------------------	--------------------------	-------------------------	----------------------------	--------------------------

Built with Precision. Built to Last.

eRise manufactures its own LFP (Lithium Iron Phosphate) batteries entirely **in-house**, giving your customers a product built with the highest quality components and cutting-edge technology. Every battery that leaves our facility reflects our commitment to durability, safety, and long-term performance.

- 60.8V / 31AH
- 1.9 KWH Energy
- In-House Made
- LFP Chemistry

Our Manufacturing Edge

<p>SMART TECH</p> <p>JK Active Balancer BMS</p> <p>Actively balances every cell to maximise capacity, performance and lifespan under real-world riding conditions.</p>	<p>PREMIUM MATERIAL</p> <p>Pure Nickel Strips</p> <p>100% pure nickel for all cell connections — superior conductivity, minimal heat and full corrosion resistance.</p>	<p>PRECISION BUILD</p> <p>Laser Welding</p> <p>Precision laser welding creates fracture-free cell joints with zero contact resistance for long-term reliability.</p>	<p>LONG LASTING</p> <p>Extended Cycle Life</p> <p>LFP chemistry delivers 2000+ charge cycles — far exceeding standard lithium battery performance.</p>
--	---	--	--

3

YEAR WARRANTY

India's Best-in-Class Battery Warranty

Our in-house manufacturing confidence backs every battery we produce. We stand behind our product — and so can you when selling to your customers.

Cell Degradation
BMS Failure
Manufacturing Defects
Capacity Loss

Why This Wins for Your Dealership

<p>Fewer Complaints & Returns</p> <p>Premium build quality means fewer battery-related service visits. Happy customers bring referrals and reduce your after-sales workload significantly.</p>	<p>Better Margins on Premium</p> <p>A 3-year warranty justifies premium pricing and significantly improves your per-unit profit margins when selling to end customers.</p>	<p>Customer Trust & Retention</p> <p>Proven in-house technology builds long-term customer confidence, driving loyalty, repeat business and strong word-of-mouth growth.</p>
